Short Description

The Fast helmet is widely recognized as one of the most effective and reliable helmet types against gun threats in the world. This helmet is made of Aramid material, a synthetic material known for its strength, heat resistant and non- and durability.

The Fast helmet is packed with features designed to enhance comfort and functionality. It includes an adjustable dial fit system to provide a customizable and secure fit, as well as a removable moisture-wicking lining for maximum comfort. One of the key benefits of the Fast helmet is its ease of use. The design allows for quick and easy donning and doffing, making it an ideal choice for a wide range of agencies and applications, including military, police, SWAT, border and customs protection, and national security agencies.

The helmet is also equipped with NVG mounts, shroud, and rails to allow for the attachment of communication equipment and other accessories, making it a versatile and flexible choice for tactical operations.
