

PASGT HELMET-(PE/ARAMID)

Short Description:

This kind of helmet is PASGT. It can respond to the threat of guns and debris with a large protection area. It is a very mature helmet type in the world. Now is widely use .

Also for this type, we have the ability of OEM/ODM. Such as adding rails to carrying communication equipment and other accessories to carry more tactical gear. Exchange the ordinary liner to the below newest breathable memory buffer cushion system or MICH 7 pads .

This kind of helmet is available in a variety of sizes to suit users of all sizes. For example: military, police, SWAT agencies, national security agencies, border and customs protection or other agencies . All of them can be equipped to provide the most comprehensive protection from gun threats.

For the material: There are 2 kind of materials can be choose: PE and Aramid.

①For PE/UHMWPE material: It is light in weight, flexible and comfortable to wear, waterproof, resistant to ultraviolet rays, can be used in harsh environments, heat-resistant and not easily deformed.

②For Aramid :It is comfortable and flexible to wear, and its ballistic resistance has been continuously tested in the EU laboratory. Aramid material is heat-resistant, and the material itself is flame-retardant .

Bulletproof level:NIJ IIIA can defend against 9mm/.44 bullets
