Short Description

The PASGT helmet is designed to combat threats ranging from guns to splinters, this helmet features a large protective field for maximum coverage and safety. It is one of the most established helmet types in the world and is now widely used and trusted by professionals in the field. The helmet is made of PE/UHMWPE material, a synthetic material known for its light weight, resistant to ultraviolet rays, which can be used in harsh environments with a long service life.

This kind of helmet is available in a variety of sizes to suit users of all sizes. For example: military, police, SWAT agencies, national security agencies, border and customs protection or other agencies .

This type helmet is adding rails to carrying communication equipment and other accessories to carry more tactical gear.
