

Bulletproof vest- tactical plate carrier

Short Description:

The plate carrier has pockets to insert ballistic plate to against rifle ammunition. Compared with the ballistic vests, it's more light and easy to wear. With the hard plate, it can protect against the rifle ammunitions.

It also could be inserted PE/Aramid UD material to protect against handgun ammunitions. With metal sheet or tightly woven fabric layers, it can protect against knives and similar weapons for stab and slash attacks.

This plate carrier, all materials and fixtures meet military/police specifications to ensure its protective performance and quality.

Bulletproof level: depends on the material inserted the carrier.

Carrier fabric: High tenacity polyester/nylon fabric

Protection area: Front and Rear.
